DATA Center

Solution for data center

Animal Hospital Consulting

Consulting for animal hospital

Construction and maintenance for advanced medical system / medical facility

We can support you with many experience and skill of special construction, building construction, piping work, electricity and telecommunication

► The equipment choice that is led by the result.

Sansei can suggest the most suitable equipment from large number of result.

▲ The construction that fixed its eyes on BCP

Various measures in accord with condition are possible to protect medical equipment from a disaster. We can incorporate that we incorporate it at the time of construction later in shortest term of works.

► Maintenance after the construction

In the hospital, it is necessary to realize environmental improvement, high efficiency. Please leave the continuous data analysis and maintenance.

▲ Building construction engineering

The construction results coherent from the consulting of the building to design, a building. In addition, I support it until use, the maintenance after the building.

► Know-how of special construction for the advanced medical system.

We suggest the solution that a specialist thought about one step to Sansei. Of course We perform the on-site real construction throughout.

Product for Operating room

For an operating room, I have various latest products. A hybrid supports the latest operating room which becoming it goes ahead through with the latest product.

- ▼ The wall of the operating room to glass. Conservatism, cleanliness characteristics are total different.

MEDIK Inc, in Germany has large number of delivery results in the world. It is maker which makes the glass wall surface of the operating room with a specialty. There was a limit to keep the clean nature in the conventional wall materials. Even if spray of water in particular attaches, it is hard to notice, and the cleaning is full of difficulty. Glass solves them.

- ▼ Product which balanced design characteristics with operation efficiency

We add them to the facilities of your institute with various latest product as medical cart and cart for operations or medical cooling boa.

► Creation of operating space by MEDIK

By enameling processing to glass and special print to the back side, we can make up a free image. Material called the superior glass changes an operating room for a patient in the space of peace.

SKY LIGHT CEILING

It is bring "nature" into the room with graphic and brightness. It bring an expanse in the space and soften the strain about inspection and operation of the patient and, to the in-hospital staff, provide comfortable workplace environment.

▲ Saitama D animal hospital
We introduce a glass wall unit made in MEDIK in the latest healthfulness and maintenance in an operating room.

In animal hospital medical equipment !!

To answer the demand of increasing patient who "want to follow the command that is equal to family"
Please talk about the high medical equipment correspondence of animal hospital.

▲ Tsuda animal hospital
The hospital is the same in both a human being and the animals, and the correspondence is urgently demanded for 24 hours, 365 days.

▼ DVMs animal hospital

▶ Yasuda Second Clinic
We support the animal hospital where I arranged the latest MR, CT.
We continue suggesting inflection of the technology to minimize the burden to an animal.

◀ Image diagnosis introduction to animal hospital

Sansei are possible a rental plan and the support of the image diagnosis, training.
Furthermore, by reading image service by the cooperation with the university hospital, we can lower the threshold.

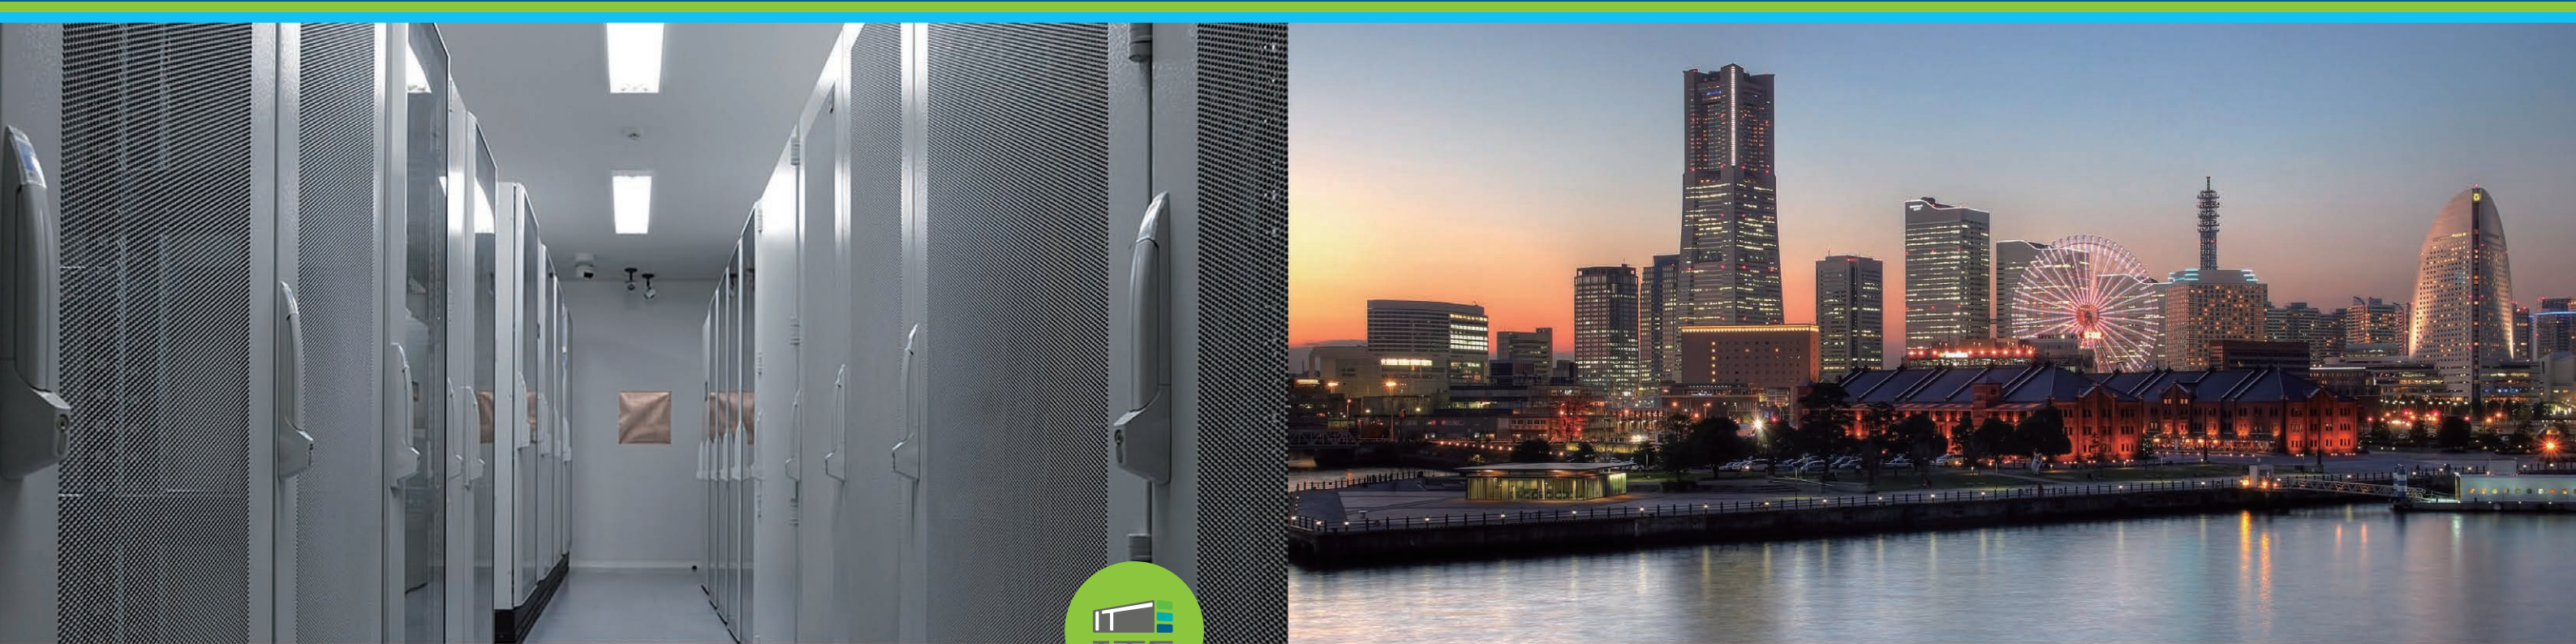

▼ Veterinary Imaging Network System (VIN)

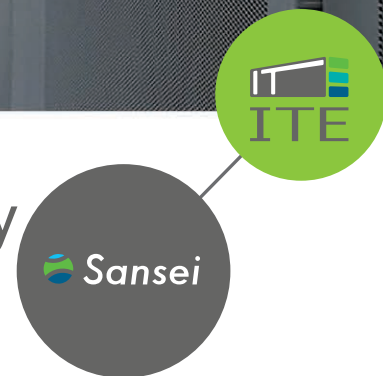

Using a high resolution image transmission technology of Sansei, reading shadow made VIN system ties a local animal hospital and a veterinary school hospital with remoteness by real DICOM data.

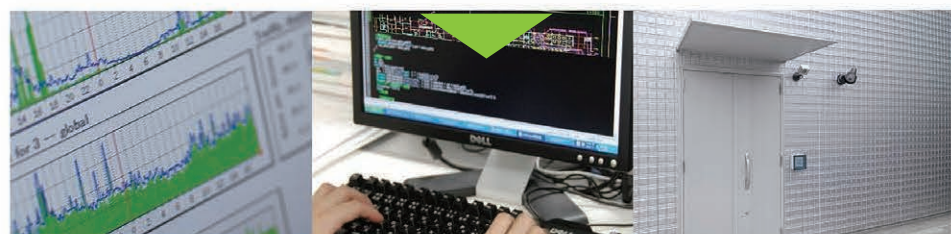

ITE Data center of our company

Highly confidential information security.
We hold data center in Yokohama Kohoku.
By an interlocking movement with ITE,
we back up hardware solution strongly.

▲ Housing, hosting is possible in data center
by the company construction.

The server room managing the data of the customer is protected with an RF shield and is conserved by the monitoring system for 24 hours. Not to mention generator and UPS, it is the data center that we make the most of company's know-how, and there was. You can entrust us from a building, a design.
